

Announcement (08/20/2018)

## Training and Field Day Location

TRI Environmental - South Carolina's  
Roads to Rivers Research Institute (3RI)  
112 Martin Road, Greenville, SC 29607  
(off Mauldin Road ¼-mile north of the  
Lake Conestee Nature Park)

## Organizing Committee

### General Chair

J.P. Johns, Woolpert

### Local Arrangements

Jay Sprague, TRI Environmental, Inc.  
Judy Wortkoetter, Greenville County

### Technical Program

Dr. Cal Sawyer, Clemson University  
Dr. Charles Privette, Clemson University

### Local Exhibit & Demonstration Coordination

Joel Sprague, TRI Environmental, Inc.

*None of the organizing or sponsoring committee agencies endorses any of the specific products being highlighted. The goal of this event is to educate the audience on the fact that there are numerous products available to supplement or replace traditional Erosion Prevention and Sediment Control BMPs. There are many BMPs available for use on construction sites to control erosion and prevent offsite sedimentation. All have applications and all have limitations. BMPs should be chosen based upon their applicability to the site and situation.*
